DETAILED ACTION

Reasons for Allowance

1) The following is an examiner's statement of reasons for allowance:
Examiner has carefully reviewed the arguments put forth compared to the prior art cited. As well further considerations were made and upon final review, it is the examiner's position that the case has met the conditions of patentability.

It is generally been well known in the prior at the time of the present invention to form thin layer films on nanostructured supports (i.e. a substrate at the nano-scale), which would generally be used in both the micro- and nano-technology based electronics or semiconductor systems. However the knowledge to treat the nanostructured support to generate internal strains in the support, causing deformation of the support by dilation or contraction at least in the plane of the thin layer...etc....to basically create a strain in the thin layer, was not known or obvious at the time of the present invention. Prior art suggests treatment of the thin layer directly, usually in order to fabricate a strengthening of the bond means via heteroepitaxial deposition. But this technique of subjecting the substrate to incur such a means was not know, and thus the rationale for allowing the case.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to G. NAGESH RAO whose telephone number is (571)272-2946. The examiner can normally be reached on 8:30AM-5PM (INDEPENDENT FLEX SCHEDULE).
